THE EVERGLADES NEWS

PUBLISHED IN THIS CONGRESSMAN REID SAYS OUGHT TO BE CALLED THE HOOVER-SKIPPER DRAINAGE DISTRICT

VOL. 6—NO. 8

CANAL POINT, PALM BEACH COUNTY, FLORIDA FRIDAY, APRIL 26, 1929.

\$2.50 A YEAR.

Big Lake Is Incircled As Rail Lines Meet

Connection of the rail lines of the Florida East Coast and the Atlantic Coast Line railroad extensions to the south shore of Lake Okechobee will be effected Saturday when J. E. C. crews will connect the South Bay and Miami canal meet at "station 348" about six and a half miles south of Lake Okechobee.

Station 348 is no more than a half mile from the "numbered survey" stakes which are placed on the right of the route of the railroad but it serves to mark the place where the rails will meet at a bridge between South Bay and Miami.

The Atlantic Coast Line extension from Clewiston on the south side of Lake Okechobee was finished some time ago and the Florida East Coast is working east from that point to meet the extension on the south side of the lake.

The passing siding at South Bay has been finished and team and commodity tracks are being constructed. Approach to the South Bay will be rockd on soon. No plans have been announced for a station building at this point.

R. L. Langford, of St. Augustine, assistant engineer of construction, was in the Everglades last week and inspected the construction work with J. E. Lucas, resident engineer. It is believed that the construction company will be ready to turn the job over to the railroad company by the first of June.

The Florida East Coast's extension starts at Okechobee, 35 miles south of Canal Point and the road was finished into Canal Point in the middle of 1925, after various interruptions.

Canal Point was the end of the "rail" until February of 1927 when the extension was carried to Belle Glade, 15 miles south of Canal Point.

With the completion of the extension to Miami and the connection with the Atlantic Coast Line, Lake Okechobee will be almost encircled by railroads and thousands of time residents benefited.

Extension of the Florida East Coast to Miami and the connection with the Atlantic Coast Line, Lake Okechobee will be almost encircled by railroads and thousands of time residents benefited.

With the completion of the extension to Miami and the connection with the Atlantic Coast Line, Lake Okechobee will be almost encircled by railroads and thousands of time residents benefited.

EVERGLADES LEAGUE OPENS SEASON WITH GAMES ON THURSDAY

Four Teams In League Now; More Expected As Season Advances

DIAMOND IS PROVIDED BY SUGAR COMPANY

Only Sunday Games Until Thursday Half-Holiday Goes Into Effect

The recently organized Canal Point baseball team, the "Canal Point Sugarers" has joined the Everglades League and will play its first game Sunday, May 5, with the Cane Crew at Clewiston.

At a meeting of the home of W. J. Bull, president of the league, in Belle Glade last week, plans were perfected for a series of games and the Everglades League season will open officially with the games May 5.

The Brown Company will play Belle Glade on the opening day, May 5. So far only four teams are in the league, Belle Glade, Canal Point, Clewiston and the Brown Company.

The officers of the Everglades League are Dr. W. J. Bull, president; T. B. Gilbert, secretary and treasurer; and members of the board of directors are Frank O'Connell, Canal Point; Jim Beardsley, Belle Glade; and Mr. Stewart of Clewiston.

It is planned to have games on Sundays until the Thursday after noon closing of business hours begins this summer. More teams are expected to join the league as the cropping season closes.

A base ball diamond is being provided for the league at Canal Point by the Southern Sugar Company and it will be available to the league for games.

The infield will be leveled with marl and graded level.

LOCAL BILLS PASSED BY LOWER HOUSE

Bills affecting drainage districts in the Everglades, introduced by Congressman Reid, passed the lower house of the Legislature.

The bills were advertised in The Everglades News and no objections were introduced to prevent their passage. The bills as passed are as follows:

1. To amend an act to provide for the drainage of the Everglades, passed March 1, 1928.

2. To amend an act to provide for the drainage of the Everglades, passed March 1, 1928.

3. To amend an act to provide for the drainage of the Everglades, passed March 1, 1928.

4. To amend an act to provide for the drainage of the Everglades, passed March 1, 1928.

5. To amend an act to provide for the drainage of the Everglades, passed March 1, 1928.

6. To amend an act to provide for the drainage of the Everglades, passed March 1, 1928.

Legislature Furnished Report Of State's Financial Condition

Statistical information and maps of Florida counties were furnished representatives and senators of the Florida legislature Monday by order of Governor Dixie C. Carlson.

It is shown by the data collected that the cost of government is accompanied by decreasing collections of taxes and that a state of emergency exists, according to Mr. Dixie, which "threatens the peace and safety unless men of good will, common judgment and statesmanship unite their minds to the problem."

The cost of government in Florida last year is given as approximately \$12,000,000. This amount includes state, county and municipal bonds, but omits drainage districts, public utilities and other corporations.

Mr. Dixie says that the cost of government in Florida last year is given as approximately \$12,000,000. This amount includes state, county and municipal bonds, but omits drainage districts, public utilities and other corporations.

PAHOKEE

By Mrs. Elizabeth Sheppard
Malcom Cobb was taken to the Good Samaritan hospital Thursday for an operation for appendicitis. He is doing fine.
Mr. Tom Sheppard and Mrs. Elizabeth Sheppard motored to Port Mayaca Monday to spend the afternoon with Mr. and Mrs. L. W. Hubbard.
Alfred Husky and mother returned to Little River Saturday. They have been in Pahokee for about two weeks on business.
The many friends of Mr. Simmons will be glad to know that she returned from the hospital Wednesday.
Dr. Chanler Creel was taken to the Good Samaritan hospital Friday. He is suffering with his head. Mr. and Mrs. Tom Sheppard motored to Belle Glade and South Bay Sunday.
Mrs. W. P. Walker was rushed to the Good Samaritan hospital Sunday, where she underwent an operation for appendicitis. She is getting along nicely.
See A. Barfield is building an addition to his filling station.
Mrs. J. Q. Henry and children spent the latter part of last week

in Pahokee. Mrs. Henry has been living in West Palm Beach since the September hurricane.
E. Weir, a pioneer of West Palm Beach has taken over Mr. Barfield's grocery, and is adding furniture to his stock.
Miss Ennie Wilson of Wauchula, is visiting Miss Sayde Thompson of Pahokee.
C. L. Wilder is remodeling his store building.
Mrs. S. A. Barfield and her son, Charlie Barfield, spent Sunday in West Palm Beach with relatives.
Miss Ennie Wilson, Miss Frank Thompson and brother, Frank Thompson, motored to West Palm Beach Sunday.
D. H. James of the Chevrolet agency of West Palm Beach made a business trip to Palm Beach Tuesday.
Mrs. Butler Spooner is staying in West Palm Beach, so that she may be with her son, J. B. who was seriously injured in an accident Sunday morning near the railroad crossing between Canal Point and Pahokee, when his Chevrolet truck turned over. J. B. was rushed to the Good Samaritan hospital.
The Pahokee Theater now has a complete line of the people of Pahokee; Canal Point and surrounding territory may enjoy talking pictures.

CLEWISTON

By J. R. Beardsley
April 23, 1929.
Rains which fell through several days of the week-end of the 21st and 22nd, have been of great benefit to the crops of the area. The water has been in such high stage from continued drizzle that there can be but little help for them. Numbers of growers indicate that it is questionable if they make 20 bushels per acre on the average planted. For the week just ended, three cars of tomatoes were loaded by the Clewiston Packing Company, which is handling the bulk of the crop and one car of mixed melons, leaving one car of melons to be shipped by the Clewiston Packing Company, mostly tomatoes, about 50 packages by express, mostly tomatoes shipped by Baker, Conell and Crouch. It is reported that each of the operators who had intended packing tomatoes at Miami Locks this season have abandoned the project and that the material on the ground has been moved to Belle Glade. The crop in around the locks will probably be handled about half through Clewiston and half through Belle Glade. One of the outstanding facts in that section is that of G. H. Chestnut, on the Ed Chestnut farm on the Miami canal, and a car was picked from this field Monday.
C. A. Jackson, for the Southern Sugar Company, with the assistance in the field of Barfield, Leiner, and Anthony Leiner, by the end of this week will have completed digging of 6000 bushels of Collier potatoes in fields along the Moore Haven road, and will probably load 10 or more cars next week. While the potato market has been in the doldrums this spring, the Red River made by the company in fields from which shipments have been made, has enabled the operators to show a profit at prices ranging from \$1.00 to \$1.25 per bushel, f. o. b.

W. C. Hosker, of the Clewiston Packing Company, expects to load six cars of tomatoes and two or three cars of mixed vegetables, mostly beans, eggplants and peppers this week and other shippers will probably have three cars of tomatoes to sell.
A definite date has now been set for the production of the "Sugar Cane Minstrel, under the auspices of the ladies Aid of the Community church, which will bring the local talent before the public on the first and second of May at the Glades Theater. May S. Ames is in charge of the rehearsals. Anthony Leiner is directing the music. W. C. Owen is the interlocutor. Ed Butler, Wynne Morgan and Minnie, the end men. The number of high class feature acts, and the knowledge of the black-face impersonators, give promise that the show will be "hot stuff".
The Sunday evening song service at the Community church on the 21st, directed by H. M. Beach, in the absence of Dr. Bailey, was enthusiastically received by a large congregation. Of special interest was a group of spirituals by the male quartette, Beach, Leiner, Beardsley and Heard.

Mrs. W. G. Owen and Beardsley, with a score of 220 in the first round played, came from behind to finish first of North and South teams in the weekly Double Bridge at the Wausau Hotel Wednesday night. Eakins and Giles were high East and West. At the completion of five rounds, North and South standing is: Mrs. Ruth R. Beardsley, 159; Leonard Ames, 99; Mrs. C. A. Jackson, 121; J. E. Beardsley, 127; Leonard Ames, 99. Mrs. and Mrs. Thomas Burr, who arrived recently from Urbana, Illinois, brought with them a number of valuable and interesting books as gift of the school library, which now comprises nearly four hundred volumes. Mr. Burr is an engineer in several of the Bahama enterprises. Mrs. F. M. Wright whose husband is draughtsman for the Southern Sugar Company is a daughter of the Burrs.
To paraphrase, in the spring a young man's fancy turns to love. New car deliveries made in Clewiston since April 1st total one Hummer, three Graham-Paige, four Oldsmobiles and Pontiacs, seven Fords, and including trucks, twelve Chevrolets.
At this date, there has been no activity by the Huffman Company, contractors on the Sugarland Highway, State Road No. 25, indicating that construction work on the new projects from the Palm Beach county line to LaBelle would begin soon. Since a surveying crew of the State Road Department is on the ground, it is expected that the contractor is assembling equipment preparatory to moving headquarters from South Bay to Clewiston. Since no floating equipment will be required, and there is subgrade over practically all the route, vigorous prosecution of the work is looked for. Originally the plan of the developers of Clewiston, called for twice the width of highway through the town of Clewiston contemplated by the State Road Department and

it is believed that the Clewiston company will adhere to this plan, the additional construction being done by their own forces, or under an arrangement with the Huffman Company.
The completion this week of the two four-apartment buildings by Crow Brothers for Mrs. E. A. Schult, finds all of the apartments occupied. Among others, the Dr. Miller, the G. B. Thomas and the newyards, Mr. and Mrs. Carl Beier, have moved from the Wausau Hotel, to start housekeeping in new quarters.
To avoid possible embarrassment and the loss of time, prospective visitors to the mill, which lies a mile and a half south of the center of Clewiston, are advised that to enter the grounds must be had from the executive offices of the Southern Sugar Co., located in the Administration building, at Civic Center. It is understood that this restriction is deemed necessary to protect the company during the period of construction and enlargement of the present mill.

ANNOUNCEMENT
Dr. Goodman, CHIROPRACTOR for a short time will be located at Mrs. Croso's home, north of town, South Bay, Pahokee. His hours will be in evening after 5 o'clock p. m. Those desiring adjustments should come early. 8-2
NOTICE
The Town Council of the Town of Pahokee will convene as a board of equalization on the 7th day of May, 1929, for the purpose of equalizing the 1929 tax roll for the Town of Pahokee, and will at that time hear any complaints regarding same.
J. H. CASON,
Town Clerk.

NOTICE
I hereby announce my candidacy for councilman for the town of Pahokee on all appropriate qualifications. If elected, I will endeavor to do my best for the benefit of Pahokee and its citizens.

FLOOD CONTROL BILL PROVIDES FOR BOARD

Measure Drawn By Peeples, To Be Submitted Next Week To Legislature

A bill providing for creation of an Everglades Flood Control district, whose board of commissioners would be elected by the people, was introduced in the Florida legislature by Representative J. H. Peeples, Glades County, and will be submitted to the legislature next week. The bill, which is drawn up by Representative Peeples, calls for the establishment of a flood control district to be governed by a board of five commissioners.

Funds for operation would be authorized in the measure, which would also provide for the issuance of bonds by the governing board of bonds up to \$500,000. Issuance of the bonds, however, would be held up until after the federal government has signed the amount of financial aid it will give to the flood control situation.

Under the provisions of the measure, the committee would make up the district. They are Glades, Hendry, Palm Beach, Monroe, Lake, Collier, St. Lucie, Okechobee, Martin, Wilcox and Broward.

The board, with one member from each county, would be authorized to establish canals, levees,

dams, locks and levees and to improve natural waterways providing for proper drainage of Lake Okechobee.

In addition, authority would be vested in the governing body to accept any federal appropriation or assistance, and to use funds therefrom.

The board would be authorized to levy such ad valorem tax as may be within the power as might be necessary from year to year to carry out flood control plans.

Confederation of lands would also be within the province of the board in selecting channels to flood control.

V. C. Denton's New Store at South Bay Nearly Completed

V. C. Denton's new store building at South Bay is nearing completion and is expected to be ready for occupancy in about 10 days.

The building is 30x70 feet with that composition roof and sheeted with plaster and the ceiling is "rock" express. Space has been provided for a 20x20 main store room and a modern filling station and accessory shop will occupy a space 24x45 feet.

M. D. Hardy, contractor, says Tuesday that the foundation was being driven to rock and the reinforced concrete wall carrying the ceiling. The building is located on the foundation.

When the building at South Bay is completed, Mr. Hardy will start work at Belle Glade on a similar store building for Mr. Denton.

Mr. Denton started in the general merchandising business at South Bay about five years ago, later establishing stores at Belle Glade and Pahokee. The stores at South Bay and Belle Glade were demolished in last year's storm and Mr. Denton has been doing business in rented store rooms.

Montevideo-\$1000 girls dormitory construction at local intermediate preparatory school.

B. FRANK HULL GIVES MARKETING VIEWS

Says Cooperative Selling Is Way For Farmers To Realize Profit

An Article on Cooperative, Orderly Marketing with the Peeling System

By B. Frank Hull, Editor

Ever since the West Indian hurricane of September, 1928, there has been much said and written about "flood control" to protect the agriculture interests of the Everglades.

What the dirt farmer needs more than anything else is "price control." I have farmed in Florida for more than 25 years, and I really believe that the truck farmers of Florida do not realize as much as they should per package of vegetables.

Average over the state of Florida after he has paid all expenses on his crop, he is left with a net profit of \$1.00 per package of vegetables.

Those prices are not any more than what the farmer has to pay for his seed, fertilizer, and other necessities.

What the Florida truck farmer needs is to organize, in order to stabilize his prices on his production, and the money he does to pay his debts and to live on and prosper.

The Florida truck farmer has to pay the first dollar that he gets out of his package, whether he sells or gives it to the commission merchant; there are no railroad companies that are facing the handkerchief, nor are they making money.

I claim they get 40 cents out of the package, but they get 40 cents out of the package, but they get 40 cents out of the package.

There is another reason why the Florida truck farmer has to pay the first dollar that he gets out of his package, whether he sells or gives it to the commission merchant; there are no railroad companies that are facing the handkerchief, nor are they making money.

Thirty years ago the carpenter got his \$15 to \$18 per good man with organization, he gets good money for his work, and he gets credit that he can get, and is never able to pay out of his crops.

Thirty years ago the carpenter got his \$15 to \$18 per good man with organization, he gets good money for his work, and he gets credit that he can get, and is never able to pay out of his crops.

The orderly marketing part of the system will be the best for the farmer.

"I WANT TO THINK IT OVER"

If the tall man with a big scythe and a long beard happens to tap on your window pane some night within the next few weeks, will you sit up in bed and say to him: "I want to think it over."

Moreover, I've got a life insurance deal on that I want to put through. You've never seen me make up my mind. I don't get out of my bed. Now you think that over.

THE EQUITABLE LIFE ASSURANCE SOCIETY OF THE UNITED STATES E. C. BABCOCK PAHOKEE, FLA.

THE EVERGLADES NEWS, CANAL POINT, FLORIDA

farmer, instead of shooting the field plants in the high market each day, the bureau can set up refrigeration plants in the respective shipping points and hold the stuff until the price is right.

Each day has abated and then orderly dispose the stuff to the market or sell it at a profit, which is the life way to dispose of any and all crops.

The bureau can set up standard packages, set up standard grades, and the crating material, and the least price, ask far less freight rates, and an organization, get finances to run prices or dump the surplus and discontinue the prices with its members and farmer can not do it.

The pooling part of the system, simply means that each farmer will pool his products with the other farmers as to grades and quality, in other words if his stock is superior to his neighbor, he will take more for it as to grade and quality, and pack.

The association can avoid graft in the market by shipping out the goods in an orderly way as it will have financial aid to build cold storage plants, and grade the goods and ship to the various markets just the quantity that it will take.

As the truck farmer ships to the high market, and backs it over, he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

He will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price, and he will be able to get a better price.

the falling of the bridge was precipitated to the canal below. Two men and a woman, were pinned beneath the bridge and drowned and other men unable to reach the bank also drowned. The others managed to extricate themselves.

The Southern Bell Telephone Company has installed a public telephone in the South Bay garage for the use of the public, and the traveling public. The telephone is installed in the 80 foot poles across the road.

New River canal last week and no doubt the wire crew will have wires strung into town in the immediate future.

Ed Crocker, manager of the Fredrick-Crocker grocery store, and meat market, expects to leave Sunday for Georgia in order to bring his family back with him. They will occupy the fine new apartment over the store.

Mr. J. J. McAllister has started to build his new home and home soon to be with us once more.

The Ladies' Home Demonstration Club will meet next Thursday, May 2. Everyone interested is cordially invited to attend.

Mr. Little of Miami Locks received a telegram Monday that his mother was very ill and not expected to recover. The message was phoned out from West Palm Beach to the South Bay Garage.

Two loading it and breaking the truck from there by car. On their return they met with a serious accident due to the fact that an accident car failed to stop at the lights. Blinded by the lights of the car, the driver failed to notice that a truck just ahead had stopped in order to let the other car get by.

The driver was also blinded by the bright light and feared he would run off the road. The truck which is said to belong to the Southern Sugar Co. South Bay, was in a large crowd and a good time. One of the men crashed into it, demolishing their car and seriously injuring the man who was in the car.

George Alberts made a business trip to Pahokee and West Palm Beach one day last week.

V. C. Denton and family motored to West Palm Beach on Saturday in order that they might attend the picture show.

Mr. Prase of the Fairbanks-Morse people is here supervising the removal of the two big Fairbanks-Morse pumps from South Bay to the water table on the high land around the lake. The residents are wondering what will happen in this project should the pump get out of commission at some critical time.

As long as every two pumps were on the job we felt comfortable, but with only one the risk is great. The lower land in this district is to be drained better by two pumps which are being installed below Belle Glade on the Hillsborough canal.

Shawano Plantation News, April 15

Glass doors for the book shelves in the recreation hall have been ordered and when received the library will be equipped with another set of books and will be started off.

Most of the old books were returned to the library at the time of the fire. Funds in the treasury will be used for the purchase of new books.

Dr. Boyd, county health engineer, recently visited Shawano on business regarding the improvement of the road. Mr. Young accompanied Mr. Boyd. Mr. Young is the contractor who built all existing locks on the canal in the Everglades.

Mr. Brown of the Nitrate agency in Jacksonville and Mr. Coates, local representative, were recent visitors.

Dr. and Mrs. J. W. Buck, and Danette Mays and Mrs. Mays attended the baseball game Sunday.

MOORE HAVEN

By Mrs. Bill Greene

Moore Haven was again shocked when they learned of the death of Earl Smith, well known resident of this place. His death, which came at 2 o'clock Saturday morning was said to be caused from heart failure.

It was a shock to the community. He was 34 years of age, most of this time he spent in and around Moore Haven. He was a soldier during the war and was killed in action.

He was buried Sunday morning at 10 o'clock from the Baptist church. His body was taken to Fort Oglethorpe where military services were held under the direction of the Arcadia Post, American Legion. Burial was made in the Fort Oglethorpe cemetery.

He leaves to survive his wife and three small children, also his father and several brothers.

E. L. Scott, M. S. Hayes, L. L. Hooker, and H. S. Gove left last Tuesday for Tallahassee where they will try to get the legislature to take over the maintenance of the road from the mouth of the Kissimmee river through Lakeland to Lake.

The juniors of the Moore Haven high school are sponsoring the picture show Monday and Tuesday nights of this week featuring Colonel Moore in "Why Be Good?" C. C. Klatts, the manager of the theater, is getting the junior set tickets on a percentage basis. Their money will be used to finance the Junior-Senior Banquet which is an annual affair looked forward to by all the senior classes.

Pete Christensen attended the 1. O. O. F. grand lodge assembly at Gainesville, as a delegate of Everglades Lodge Number 139, three days of last week. He reports a large crowd and a good time. One of the men crashed into it, demolishing their car and seriously injuring the man who was in the car.

Dan Griffin, accompanied by his wife and brother, and Nurse W. H. Hughes, who were on duty at the hospital at Tampa Friday morning, when they were taken to Gainesville for the stomach. At this writing he is reported as getting along as well as can be expected.

Miss Lola Lee Allison, a nurse at the Lakeland hospital, visited friends here.
